www.isfgroup.in

About us

The IMC division was established in 2004. IMC has been involved in providing consultancy for ship owners and ship managers in many areas such as implementation of TMSA, quality systems documentation and implementation, development of educational institutes, management of institutes, etc.

IMC Modus Operandi

Step 1:

CONSULTING your organization in its future ventures, vision and dream work culture. Understanding your organization and diagnosing the problems by the way of audits, inspections, surveys and investigation.

Step 2:

DESIGNING knowledge solutions that are tailor made to suit your organization and bridge the gaps and problems.

Step 3:

DEVELOPING solutions in the form of training, consultancy, digital in close association with your organization.

Step 4:

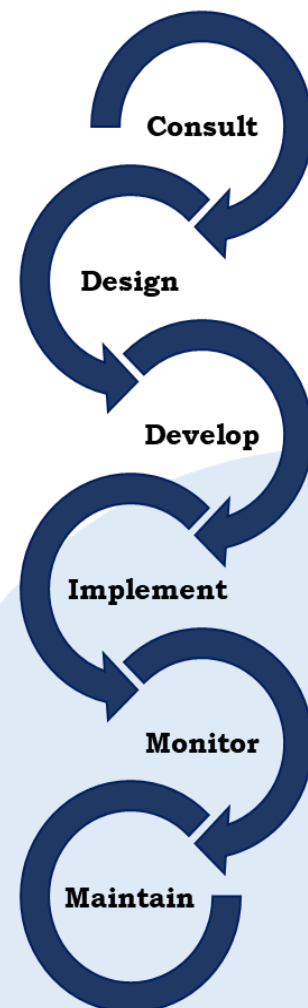

IMPLEMENTING the custom-made solutions to the organization to transform business, workforce productivity and work culture.

Step 5:

Continuously **MONITORING** the changes and solutions and continually upgrade them.

Step 6:

Help your organization in **MAINTAINING** the transformation steadily and effectively.

Our Services

Institutes' Development

ISF Group has developed feasibility study reports and has been a consultant to several institutions of quality during the last 15 years. These include The Great Eastern Academy, Anglo Eastern Maritime Academy, Wartsila Training Centre, NUSI-ITF's MESC, etc.

Institutes' Audit and Evaluation

ISF Group was chosen as the competent independent body by FOSMA and MASSA to carry out a comprehensive benchmarking of maritime training establishments in the country. 23 prominent institutes participated in this exercise which included evaluation of system, procedures, management policies, faculty performance, etc.

Institutes' Operation

ISF Group operates its own centre in Mumbai for carrying out value addition courses. It is also the academic partner to two of NUSI's training establishment with more than 15 faculty/instructors employed at these centres.

Training and Assessment of Faculty

ISF Group has auditing team and instructors to conduct evaluation and training for developing instructors.

Quality Management Systems

Since its inception, ISF has gained vast experience in developing and implementing management systems for its clients across the globe. This includes complete documentation, restructuring of documentation and consulting in line with ISO 9001, ISM code, ISO 14001, MLC, TMSA, SEEMP, etc.
